WORK EXPERIENCE

MomentumAI

Co-Founder & CTO

Sep. 2025 – Present

Amsterdam, Netherlands

- Co-founded [MomentumAI](#) to provide European organizations with a platform to deploy AI effectively, safely, and responsibly across all their teams.
 - Responsible for the engineering efforts
 - Full stack web development + DevOps
 - Product design (UI/UX)
 - Shared responsibility for many of the tasks that come with starting a new company.
- Successfully built the product that is now being used by companies across Europe.

Yara AI

Director of Engineering

Jan. 2025 – Sep. 2025

Seattle, US / London, UK (Remote)

- First hire at [Yara AI](#). Our mission was to build an AI-powered self-improvement/mental-health tool to make personalized support radically accessible.
 - Responsible for the engineering efforts
 - Full stack web development + DevOps + MLOps
 - AI and AI Safety research + engineering
 - Product design (UI/UX)
 - Helped with company strategy/branding/positioning
- Successfully built and beta-tested the product before the company ceased operations.

AI Safety Initiative Groningen

Co-Founder & Co-Director

Nov. 2022 – Jul. 2025

Groningen, Netherlands

- Co-founded [AISIG](#) to address AI's potential risks, focusing on safety, ethics, and alignment.
 - Organized events with hundreds of signups, including speakers from big labs like OpenAI.
 - Raised funding to support AISIG's mission and operations.
 - Organized/facilitated the AISF Technical & Governance courses for 90+ (BSc-PhD) students
- Lead/manage a team of 10+ students and engage with the wide academic/professional community.
- Took AISIG from an idea to one of the largest student-led AI Safety organizations in the world.

University of Groningen

Teaching Assistant & Student Mentor | Sep. 2021 – Mar. 2023

Sep. 2021 – Jul. 2024

Groningen, Netherlands

- Teaching Assistant for the courses: Introduction to Artificial Intelligence and Basic Scientific Skills
 - Helped students understand the course materials in fun and engaging ways.
 - Gave tutorials & learning discussions to discuss contents, answered questions, and provided feedback.
 - Graded students work and had weekly meetings with lecturers of the courses.
- Guided a group of approx. 10 students per year to university life through group and individual mentor meetings, monitoring progress, and providing additional support.

Study Buddy | Apr. 2022 – Jul. 2024

- Provide academic support and coaching to students with ASD or AD(H)D under professional supervision.

Malvern Collegiate Institute

President of Coding Club

Jan. 2018 – Jun. 2020

Toronto, Canada

- Taught students how to code, competed in coding competitions, and oversaw collaborative projects.

EDUCATION

University of Groningen

Sep. 2020 – Jul. 2024

BSc Artificial Intelligence (Completed), BSc Computing Science

Groningen, Netherlands

- Final grade: 8.3 (A/4.0 equivalent)
- Thesis: 9.5 (“*Steering Large Language Models using Conceptors: An Alternative to Point-Based Activation Engineering*”) [[src](#)]
 - Developed novel (LLM) activation engineering method outperforming baseline approaches
 - Implemented and evaluated steering mechanisms on 6B-20B parameter models using PyTorch
 - Designed comprehensive evaluation framework with 1M+ model inferences
 - Contributed to the field of AI safety through improved model control mechanisms
- Elective courses + minor heavily geared towards mathematics, computing science, machine learning, and ethics.

Malvern Collegiate Institute

Sep. 2016 - Jul. 2020

Ontario Secondary School Diploma (OSSD)

Toronto, Canada

- Avg. grade of 95% (Honours, Summa Cum Laude equivalent)
- Includes highest level of: Mathematics, English, Biology, Physics, Chemistry, and Computing Science

CERTIFICATIONS, SKILLS & INTERESTS

- **Certifications/Awards:**
 - Malvern CI: Highest mark in Computer Science (2x, 2019, 2020), Honour Roll (3x, 2017-2020)
 - University of Waterloo: Cayley Math Contest (top 25% 2018), Canadian Computing Competition (CEMC) (2x, top 25% junior division, 2018, 2019)
 - Skills Ontario: Coding Competition (Gold medal 2019, Bronze medal 2020)
- **Language:** Dutch (Fluent, Native), English (Fluent, Native)
- **Skills:** Leadership, Programming (C, C++, Python, Java, JavaScript), ML/AI (Pytorch, LLM, Activation Engineering/Steering, Model Evaluations, Transformer Architectures, MLOps), DevOps (Azure, DigitalOcean, GCP, Docker, Kubernetes), Web Development, Communication, and Presenting
- **Interests:** Artificial Intelligence, Mechanistic Interpretability, Mathematics, Psychology, Personal Development
- **Papers/Publications:** NeurIPS 2024 – Workshop on Foundation Model Interventions [[src](#)],
